INFLATABLE BOATS

ACHILLES. DESIGNED TO BE BETTER.

From the icy waters of the North Atlantic to the blistering heat of the tropics, from lake to river, sea to shining sea, Achilles Inflatables are built to take whatever sails their way.

Our name may sound new to you because Achilles Inflatables have been on the market for just seven years. But we already sell more quality inflatables than our competition. How come? We simply make the toughest, most durable inflatables for less money than anyone else.

But who are we and where do we come from? Achilles Inflatables are produced by one of the world's largest chemical manufacturing companies and a specialist in rubber products for more than thirty years.

As one of the original pioneers of quality inflatables, we use manufacturing methods based on solid experience and practical know-how combined with the most advanced engineering techniques in boat building. We rigorously test and re-test every facet of design, material and construction before we introduce our inflatables to the public. Over the years, this careful attention to detail, quality and workmanship has helped Achilles produce the most reliable inflatables around.

Materially speaking, Achilles is the toughest.

Among the greatest fears of buying an inflatable are punctures, abrasion of fabric, exposure to fuel and ultra violet rays. These worries are a thing of the past thanks to exclusive Achilles fabric used on all our boats.

Many inflatables use materials constructed the same way waterproof clothing is made with a thin coating of vinyl. This coating can deteriorate quite quickly.

Achilles does things differently. Our material is made from a sturdy Nylon fabric coated with Hypalon® on the outside and Neoprene on the inside. The fabric is slowly cured through high pressure and heat to make it the best material possible.

This time consuming process makes our material abrasion resistant as well as resistant to gasoline and the ultra violet rays of the sun.

All our seams are further reinforced with seam tapes inside and out to enhance not only the strength but the smooth clean lines of the boat. No other manufacturer does this.

Achilles hulls will wear better and longer than most rigid hull boats. Steer an Achilles Inflatable into a stone jetty. It bounces off unharmed. Try that with a wood or fiberglass boat. Leave an Achilles Inflatable exposed to scorching sun or arctic cold, it remains unscathed.

Achilles Inflatables are not made for a season or two. They're built to perform year after year. Our inflatables have been tested around the world under the most demanding conditions. Including an arduous four thousand mile trek up the Nile River.

PROVEN TO BE BEST.

This adventurous feat involved three of our large ten-man sport boats. As these inflatables sailed past the roots of ancient civilization, they had to battle rapids, dense swamplands and severe weather conditions. All three boats made the ninety day voyage with the greatest of ease. Men, boats and fabric came through in perfect condition.

Our unique combination of design and construction make Achilles Inflatables incredibly stable, durable and virtually unsinkable.

When you invest in one, you don't have to worry about the material. It's tough, and then some.

There's more than meets the eye with Achilles.

Safety First.

Thanks to multiple air chambers, (usually more than competitive boats of the same size), our boats are virtually impossible to sink. Because of our wide beam and low center of gravity, Achilles boats insure buoyancy and stability even in the roughest water.

You save money on more than the price.

Our boats are so light, you need very little horse power and use far less fuel. Since they're inflatable, you don't need to buy or rent a trailer to move them.

They come and go with ease.

Achilles Inflatables fit in the trunk of a car. They store in a closet, attic, garage, wherever. Best of all, they're ready to go in minutes. You don't even need a launching ramp.

Light on weight, long on wear.

Achilles Inflatables are constructed of the finest heavy-duty nylon impregnated with Hypalon and Neoprene to resist abrasion, sun and weathering.

All boats come with heavy-duty fittings, and the sides are reinforced with an extra wide rubber molding to give additional toughness and strength all around the boat. All come with extra large, one-way valves for fast and easy inflation. Valves unscrew for quick deflation.

Full speed ahead.

Our overall lightness and exclusive hull design give you maximum performance even with a small outboard engine. Speeds, of course, will vary according to the size of the outboard used. Our uplifted bow gives you a drier ride. Our larger inflatable air keel is for a softer ride in choppy waters. It also prevents side slipping.

Today, Achilles is the number one quality inflatable in the United States. Tomorrow, we'll be number one everywhere else.

Limited Warranty.

You will find a warranty certificate and return post registration card included with your Achilles Inflatable Craft. Please fill in the required details and send the registration card to Achilles Inflatable Craft, Division of KOHKOKU USA, Inc. within 15 days of purchase. Do not forget to mention the hull identification number of your craft.

The specifications of Achilles boats, equipment and accessories may change without notice.

All other express statutory and implied warranties, including, without limitation, all implied warranties or merchantability, are hereby disclaimed.

Riverboats. Achilles has complete consumer and professional lines of river rafts from 9 to 20 feet. Contact Achilles for our separate riverboat brochure.

ACHILLES SPORTBOATS

PROVE TO BE BY REVOLUTION

STANDARD EQUIPMENT WITH ALL SPORTBOATS:

1. Fixed Bowdodger and Windshield (SR Series): Reduces bow spray. Comes with bowdodger support bar for easy installation.
Removable bowdodger (SD Series): Reduces bow spray. Bright orange color for safety. With bowdodger support bar for easy installation.

2. Reinforced Rubbing Strip: Extra wide, thick molded rubber for protection.

3. Solid metal combination towing ring and bow carrying handle. Painter line included.

4. Lifelines: Easily accessible from inside and out.

5. Spray deflector trim. Reduces spray over gunwales for a dryer ride.

6. Heavy-Duty Swivel Oarlocks.

7. Helmsman's Grip Handle for driving at high speed.

8. Heavy-duty marine plywood sectional floorboards for easy installation. High gloss varnish.

9. Multi-purpose interior bow rings for securing holdalls and other items.

10. Bilge Drain: Self-bailing drain with rubber diaphragm check valve.

11. Wooden Transom: For strong support of high-performance outboards. Includes aluminum pad to protect transom.

12. Lifting handles for easier carrying.

13. Achilles Extra Large Check Valve: For quicker inflation and deflation. One-way air tight non-returnable valve for inflation. Capped for double safety. For quick deflation, unscrew cap and valve together.

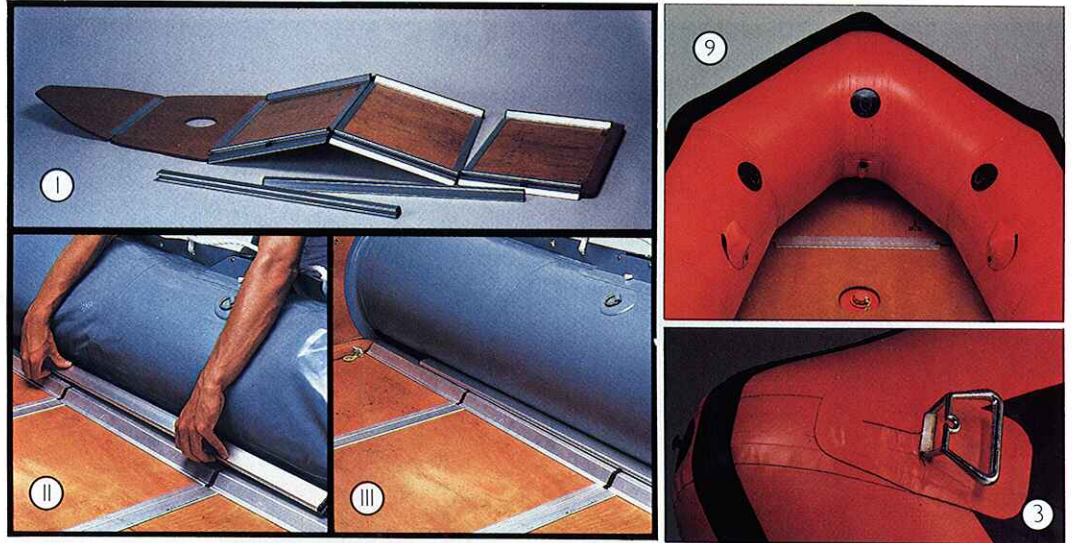

14. Carrying Bag: For easy stowing and storage.

15. High Compression Wooden Bellows Pump and repair kit.

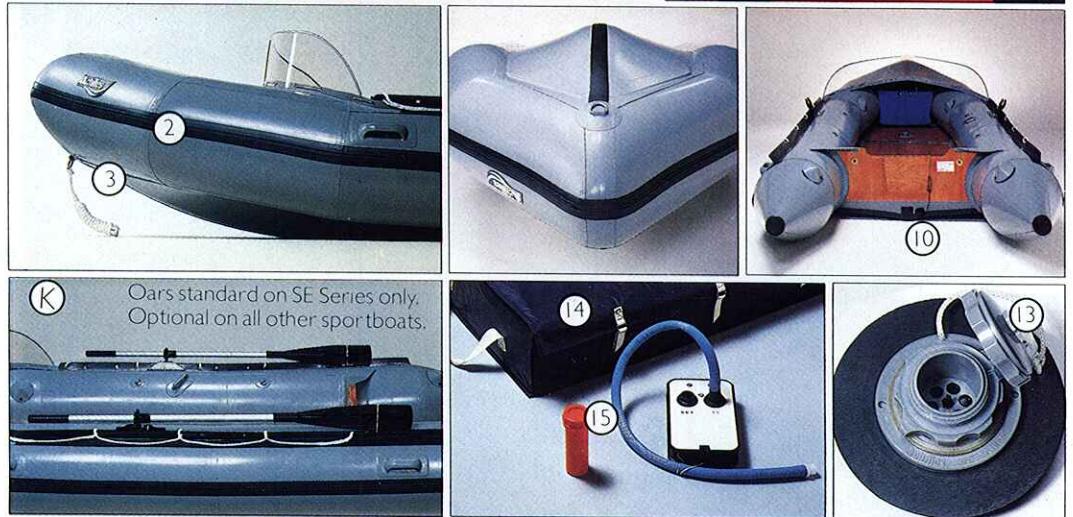

Achilles fast and easy sportboat floorboard assembly.

- I. Achilles was the first to design the simple and quick self-locking floorboard system with support Aluminum stringers. (Some models have wooden stringers.)
- II. Once the floorboards are placed in a partially inflated boat, the stringers are put in place and the boat inflated fully.
- III. The pressure of the inflated tubes pushes the stringers into place and locks the floorboards firmly into position. This results in a better, more rigid floor. This method is the fastest and easiest available of any inflatable.

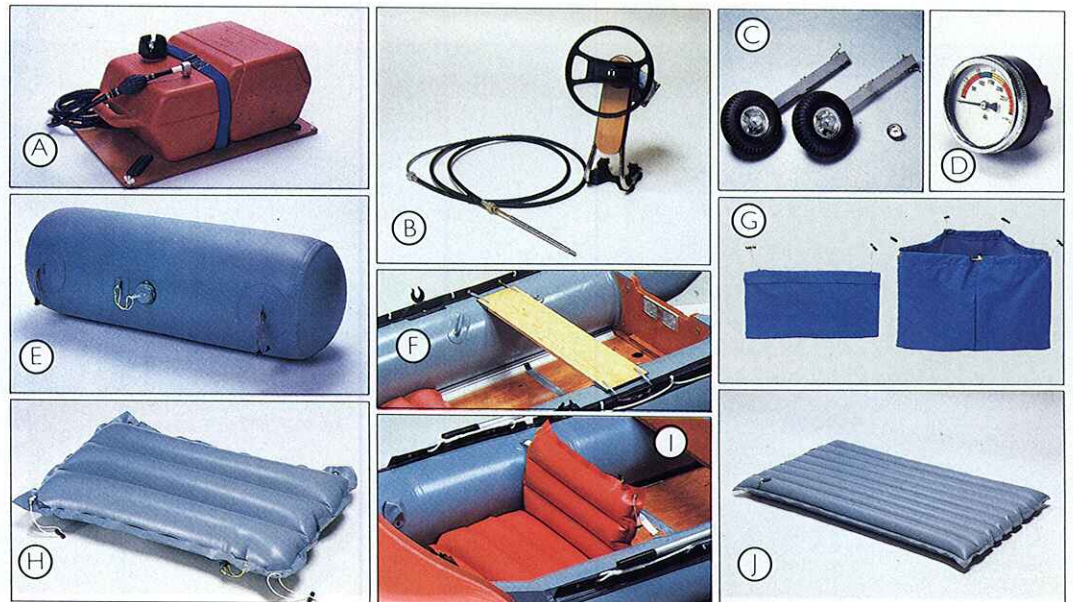

Standard Features.

Achilles Sportboats come with more outstanding standard features than any other type of inflatable. From a deeper inflatable "V" keel for a softer ride and greater performance, to an extra large check valve for quick inflation and deflation, Achilles features are the most advanced in the industry.

Optional Accessories.

- A. Fuel Tank Fitting Kit
- B. Steering System
- C. Launching Wheels
- D. Pressure Gauge
- E. Inflatable Thwart
- F. Wooden Seat
- G. Bow Holdall
- H. Inflatable Cushion
- I. Inflatable Seat
- J. Heavy Duty Inflatable Mattress
- K. Oars

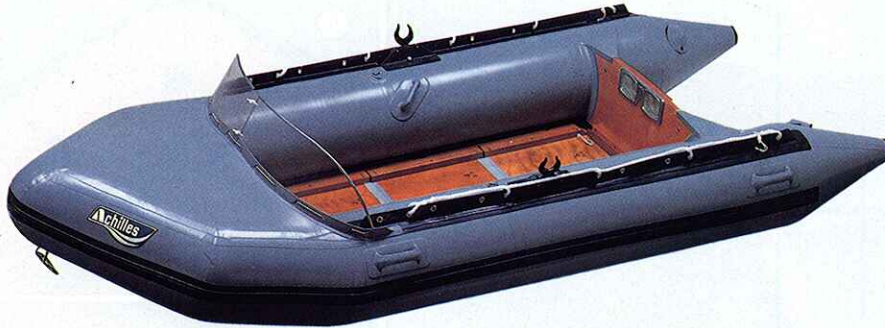

SPORTBOATS SR SERIES

4-MAN SUPER DELUXE

SR-108

Length	10' 8" (325 cm.) Inflated
Beam	4' 7" (140 cm.) Inflated
Tube Diameter	14.8" (37.5 cm.)
Weight	99 lbs. (45 kg.)
Loading Capacity	990 lbs. (450 kg.)
Recommended Hp.	12 (4-20) Standard shaft engine
No. of Air Chambers	3 plus air keel
Color	Red or Grey

5-MAN SUPER DELUXE

SR-124

Length	12' 4" (375 cm.) Inflated
Beam	5' 4" (161 cm.) Inflated
Tube Diameter	17" (43 cm.)
Weight	145 lbs. (66 kg.)
Loading Capacity	1,200 lbs. (550 kg.)
Recommended Hp.	20 (6-35) Standard shaft engine
No. of Air Chambers	4 plus air keel
Color	Red or Grey

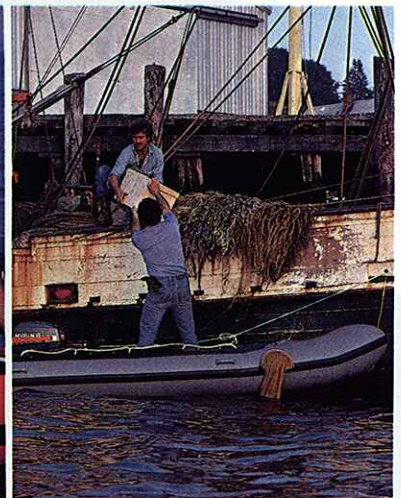

Achilles Sportboats, a whole new way to go. Anywhere.

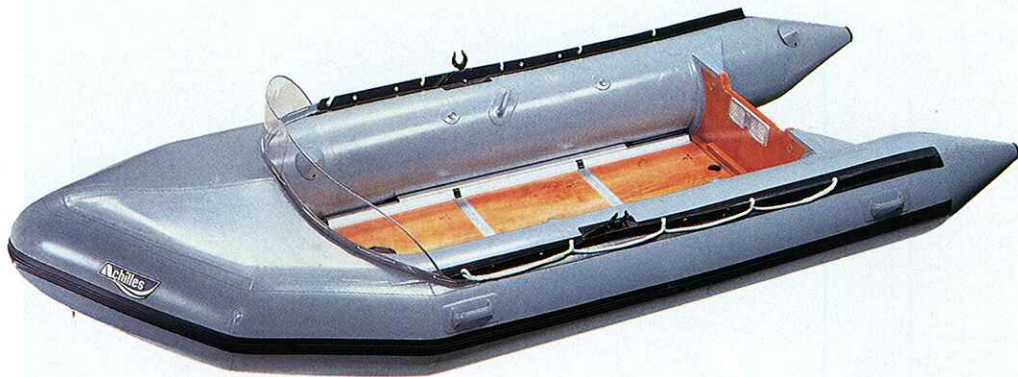

We've already told you how tough and rugged Achilles Inflatables are. Now let's talk about their versatility. Each sportboat is designed to give you the high performance of a speed boat plus the special advantages only inflatables can offer.

Where a conventional 14' boat would need a 50 HP motor to take you water skiing, an Achilles Sportboat only needs 25 HP. Achilles Sportboats are ideal for divers because of their stability. Divers can easily get in and out without a ladder. They're also a fun runabout, yacht tender, or a spacious boat for fishermen, campers, family outings.

Achilles Sportboats also make excellent rescue boats. They're easy to climb into from the water and there are no sharp edges to hurt people as they get into the boat. These soft sides make our sportboats perfect for letting passengers on or off larger boats in a seaway. Inflatables can't mar the hull of a big boat. Size for size, inflatable sportboats are the most stable boats at sea.

SPORTBOATS SR SERIES

The inflatable cushion and wooden seat shown are optional accessories.

6-MAN SUPER DELUXE

SR-132

Length	13' 2" (400 cm.) Inflated
Beam	5' 6" (167 cm.) Inflated
Tube Diameter	17.7" (45 cm.)
Weight	187 lbs. (85 kg.)
Loading Capacity	1,430 lbs. (650 kg.)
Recommended Hp.	25 (9.9-45) Standard shaft engine
No. of Air Chambers	4 plus air keel
Color	Grey

6-MAN SUPER DELUXE

SR-140

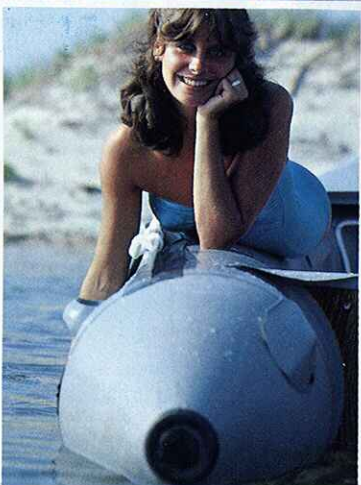

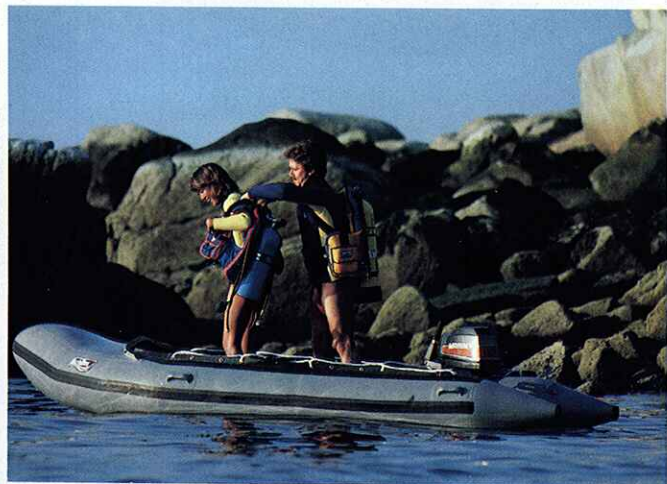

Length	14' 0" (425 cm.) Inflated
Beam	5' 6" (167 cm.) Inflated
Tube Diameter	17.7" (45 cm.)
Weight	198 lbs. (90 kg.)
Loading Capacity	1,540 lbs. (700 kg.)
Recommended Hp.	30 (9.9-55) Standard shaft engine
No. of Air Chambers	4 plus air keel
Color	Red or Grey

8-MAN SUPER DELUXE
SR-156

Length	15' 6" (473 cm.) Inflated
Beam	6' 3" (190 cm.) Inflated
Tube Diameter	19.7" (50 cm.)
Weight	211 lbs. (96 kg.)
Loading Capacity	2,400 lbs. (1,100 kg.)
Recommended Hp.	35 (9.9-60) Standard shaft engine
No. of Air Chambers	5 plus air keel
Color	Red or Grey

SPORTBOATS SE & SD SERIES WITH REMOVABLE BOWDODGER

4-MAN SUPER DELUXE

SE-11

Length	10' 8" (325 cm.) Inflated
Beam	4' 7" (140 cm.) Inflated
Tube Diameter	14.8" (37.5 cm.)
Weight	95 lbs. (43 kg.)
Loading Capacity	990 lbs. (450 kg.)
Recommended Hp.	12 (4-20) Standard shaft engine
No. of Air Chambers	3 plus air keel
Color	Red or Grey

5-MAN SUPER DELUXE

SE-12

Length	12' 0" (365 cm.) Inflated
Beam	5' 1" (155 cm.) Inflated
Tube Diameter	15.8" (40 cm.)
Weight	115 lbs. (52 kg.)
Loading Capacity	1,100 lbs. (500 kg.)
Recommended Hp.	15 (4-25) Standard shaft engine
No. of Air Chambers	4 plus air keel
Color	Red or Grey

The SE-11 and SE-12 Sportboats make outstanding tenders for large boats. In addition to being fast, maneuverable planing sportboats, their roominess and stability allow them to carry heavy loads of passengers and gear. A range of optional accessories (inflatable thwarts, cushions, air mattresses, fold-up seats, wooden seats, etc.) is available for extra comfort. Add lock-type oarlocks as standard features and you have a sportboat which is also a do-everything tender and utility boat.

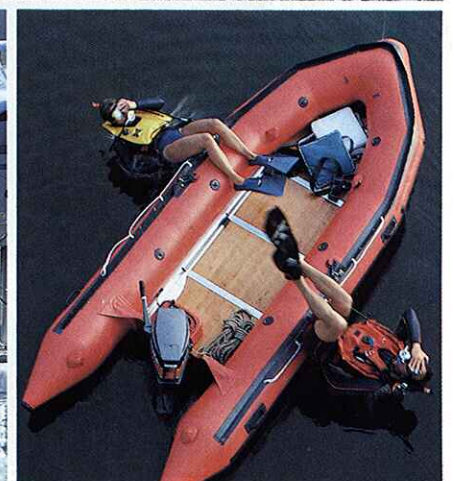

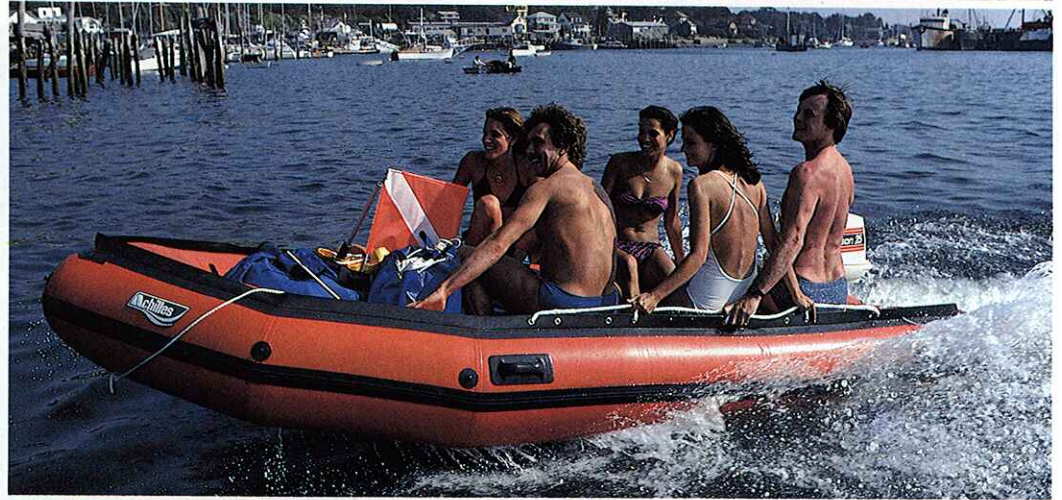

If you're into fishing or diving, get into our Open Bow Sportboats.

Our super roomy SD and SE Sportboats are built to work hard. That's what makes them a favorite with fishermen, scuba divers and boat yard workmen who need a boat that can carry a lot of gear.

Without the easy-to-remove bowdodger, there's plenty of floorspace to stow diving tanks and scuba equipment; rods, reels and the days catch. With the bowdodger, there's spray protection for when you're underway.

Achilles SD Sportboats are ideal to ferry passengers and luggage from harbor out to boats or as a reliable workboat for boat yards. There's ample space for storage and plenty of room to move about.

SPORTBOATS SD SERIES WITH REMOVABLE BOWDODGER

5-MAN SUPER DELUXE

SD-124

Length	12' 4" (375 cm.) Inflated
Beam	5' 4" (161 cm.) Inflated
Tube Diameter	17" (43 cm.)
Weight	143 lbs. (65 kg.)
Loading Capacity	1,200 lbs. (550 kg.)
Recommended Hp.	20 (6-35) Standard shaft engine
No. of Air Chambers	4 plus air keel

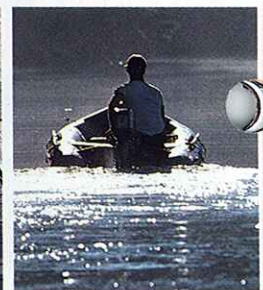

● ● Color Red or Grey

6-MAN SUPER DELUXE

SD-14

Length	14' 0" (425 cm.) Inflated
Beam	5' 6" (167 cm.) Inflated
Tube Diameter	17.7" (45 cm.)
Weight	191 lbs. (87 kg.)
Loading Capacity	1,540 lbs. (700 kg.)
Recommended Hp.	30 (9.9-55) Standard shaft engine
No. of Air Chambers	4 plus air keel

● ● Color Red or Grey

8-MAN SUPER DELUXE
SD-156

Length	15' 6" (473 cm.) Inflated
Beam	6' 3" (190 cm.) Inflated
Tube Diameter	19.7" (50 cm.)
Weight	211 lbs. (96 kg.)
Loading Capacity	2,400 lbs. (1,100 kg.)
Recommended Hp.	35 (9.9-60) Standard shaft engine
No. of Air Chambers	5 plus air keel
Color	Red or Grey

ACHILLES SPORT DINGHIES WITH REMOVABLE BOWDODGER

4-MAN DELUXE SPORT DINGHY SPD-4DX

Length	10' 2" (310 cm.) Inflated
Beam	4' 11" (150 cm.) Inflated
Tube Diameter	15.8" (40 cm.)
Weight	101 lbs. (46 kg.)
Loading Capacity	990 lbs. (450 kg.)
Maximum Hp.	9.9 Standard shaft engine
No. of Air Chambers	3 plus air keel
Color	Red and Grey

The dinghy that does almost everything.

These 2 in 1 dinghies give you the convenience of an inflatable dinghy with the performance of a planing sportboat.

Achilles Sport Dinghies are perfect yacht tenders. Being inflatable, they can't mar the hull of your boat. And you don't have to worry about stepping on the tube during boarding because of their stability. Achilles Sport Dinghies row easier than regular dinghies, too. And they're also ideal for scuba divers, fishermen, explorers and vacationers.

Like all Achilles boats, they assemble in minutes. They're light in weight, easy to carry and extremely sturdy and stable. Despite their compactness, they're designed to carry big loads.

These dinghies come with a wooden floor and inflatable keel so they're able to plane and handle like a sportboat. The deeper "V" keel gives you a softer ride and the stringers we use along the floorboards provide greater rigidity. They track better when rowing than regular dinghies and tow easily.

Standard Equipment.

Includes all Sportboat Standard Equipment except:
Spray Deflector
Trim Lifting Handles on SPD-2FL

Additional Standard Equipment Includes:

Aluminum and Plastic Collapsible Oars, Oar Stoppers, Wooden Seat with Velcro Fitting, Inflatable Seat.

Optional Accessories.

Pressure Gauge
Carrying Bag For Floorboards

2/3-MAN SPORT DINGHY

SPD-2FL

(with floorboards and air keel)

Length	9' 2" (280 cm.) Inflated
Beam	4' 2" (127 cm.) Inflated
Tube Diameter	12.6" (32 cm.)
Weight	79 lbs. (36 kg.)
Loading Capacity	570 lbs. (260 kg.)
Maximum Hp.	6.0 Standard shaft engine
No. of Air Chambers	2 plus air keel
Color	Grey

4-MAN SPORT DINGHY

SPD-4FL

(with floorboards and air keel)

Length	10' 2" (310 cm.) Inflated
Beam	4' 7" (140 cm.) Inflated
Tube Diameter	13.8" (35 cm.)
Weight	95 lbs. (43 kg.)
Loading Capacity	925 lbs. (420 kg.)
Maximum Hp.	8.0 Standard shaft engine
No. of Air Chambers	3 plus air keel
Color	Grey

ACHILLES DINGHIES

STANDARD EQUIPMENT WITH ALL ACHILLES DINGHIES:

1. Removable bowdodger: Reduces bow spray. Bright orange color for safety.
2. Forward Inflatable Seat: For rowing and added flotation for ST Series. DT Series has forward wooden seat.
3. Hinged Marine Plywood Floorboards for added stability. Fold up for easy storage when not in use. High gloss varnish. Plastic stringers reinforce the floor boards on ST models only.
4. Wooden Stern Seat with Velcro Fastener. Can also be used in bow section. (ST Series)
5. Lock-Type Oarlocks for easy rowing and smoother strokes. Greater maneuverability and no chance of "Oars Over Board."
6. Aluminum and Plastic Collapsible Oars. Specially made for Achilles Dinghies and Sport Dinghies.
7. Lifelines: Attached with stainless steel "D" rings fastened in thick molded rubber.

8. Oar Stoppers for additional oar support when not in use.
9. Towing Stainless Steel "D" Ring. Fastened in molded rubber with reinforced Nylon for stronger and safer towing. Painter line included.
10. Reinforced Rubbing Strip: Extra wide, thick molded rubber for protection. Bright yellow color for safety.
11. Outboard Mounting Bracket.
12. Stern Lifting Handles for easier carrying on 4 and 5 man models only.
13. High Compression Wooden Bellows Pump and repair kit.
14. Heavy-Duty Nylon Sea Bag: for easy stowing and storage.
15. Achilles Extra Large Check Valve for quicker inflation and deflation. Capped for double safety. For quick deflation, unscrew cap and valve together. Also includes (not shown) instruction manual.

Achilles Dinghies They make good times even better.

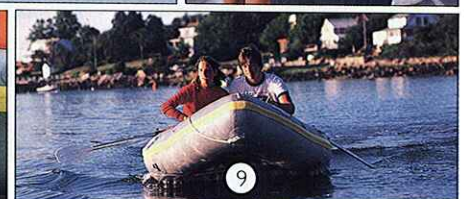

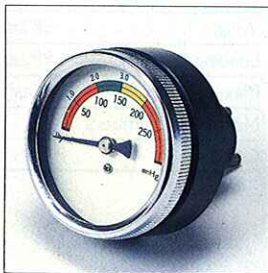

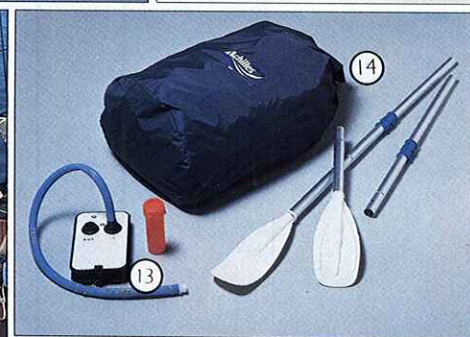

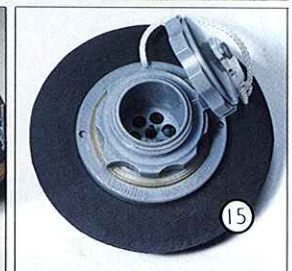

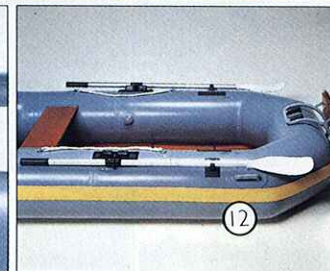

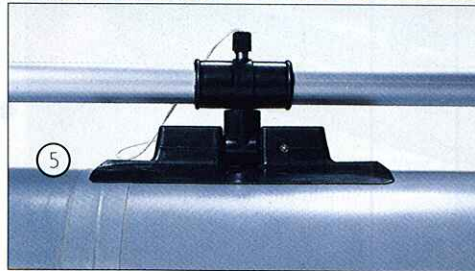

Whenever you're sailing, you get more out of an Achilles Dinghy. And best of all, everything you really need comes as standard features.

Only Achilles gives you two stern lifting handles on all 4 or 5 man dinghies for easy carrying. Our specially designed oars and oarlocks make our dinghies easy to row. You'll never lose an oar again because Achilles Dinghies come with locked-in oarlocks and holders.

All Achilles Dinghies are made of high quality, heavy-duty Nylon coated with Hypalon on the outside and Neoprene on the inside. This guarantees an airtight hull and makes our boats resistant to abrasion, sun, and gasoline.

Achilles Dinghies are also very kind to yachts. Being soft sided, they can't mar the hull of larger boats. And they're stable enough for passengers to stand on the tube when getting on or off a larger boat.

They assemble quickly, store in a minimum of space, and can be kept inflated on the deck of a larger boat. No wonder Achilles is the most popular selling dinghy in the United States.

Optional Accessories

- Pressure Gauge
- Carrying Bag for Floorboards (Not Shown)

DINGHIES ST SERIES

2/3-MAN SUPER DELUXE DINGHY ST-2

Length	8' 4" (254 cm.) Inflated
Beam	4' 1" (125 cm.) Inflated
Tube Diameter	11.8" (30 cm.)
Weight	70 lbs. (32 kg.)
Loading Capacity	550 lbs. (250 kg.)
Maximum Hp.	4 Standard shaft engine
No. of Air Chambers	2
Color	Grey

4-MAN SUPER DELUXE DINGHY ST-4

Length	9' 5" (287 cm.) Inflated
Beam	4' 7" (140 cm.) Inflated
Tube Diameter	13.8" (35 cm.)
Weight	81 lbs. (37 kg.)
Loading Capacity	880 lbs. (400 kg.)
Maximum Hp.	4 Standard shaft engine
No. of Air Chambers	3
Color	Grey

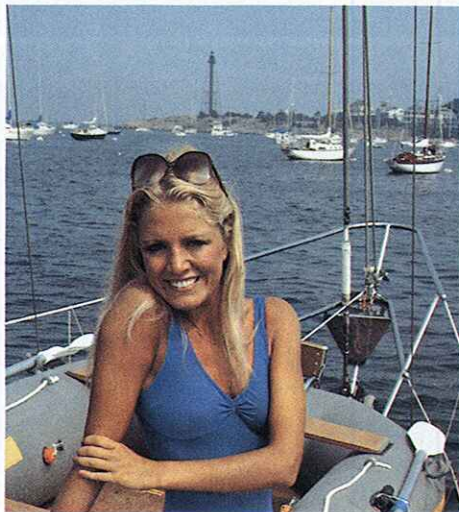

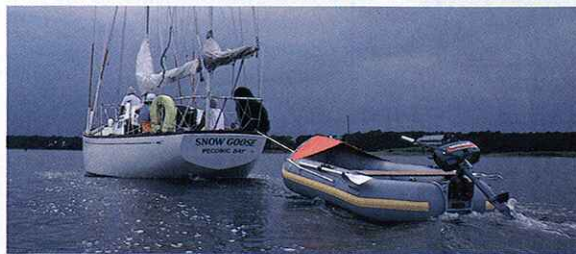

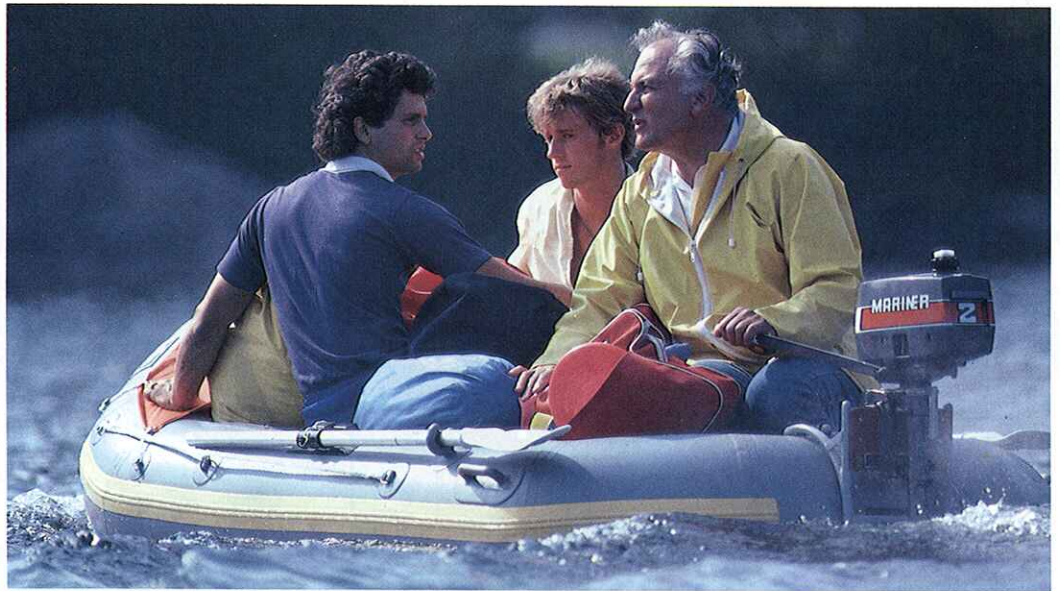

5/6-MAN SUPER DELUXE DINGHY ST-5

Length	10' 4" (315 cm.) Inflated
Beam	4' 9" (145 cm.) Inflated
Tube Diameter	13.8" (35 cm.)
Weight	88 lbs. (40 kg.)
Loading Capacity	990 lbs. (450 kg.)
Maximum Hp.	4 Standard shaft engine
No. of Air Chambers	3
Color	Grey

The ST Series

These are our extra heavy-duty dinghies. Built for really tough situations and rugged environments. Ideal for sailing in rocky areas. Perfect for scuba diving. Special features include an inflatable seat and plastic stringers to reinforce the floorboards. Made of Achilles heavy-duty Nylon coated with Hypalon on the outside and Neoprene on the inside. The ST-4 and ST-5 each have three stainless steel towing "D" rings. The ST-2 has two.

DINGHIES DT SERIES

2/3-MAN DELUXE DINGHY

DT-2

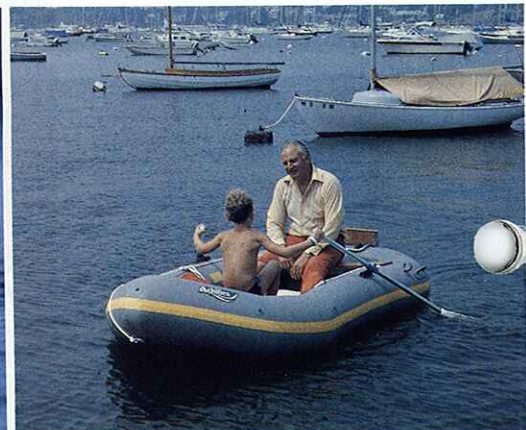

Length	8' 4" (254 cm.) Inflated
Beam	4' 1" (125 cm.) Inflated
Tube Diameter	11.8" (30 cm.)
Weight	64 lbs. (29 kg.)
Loading Capacity	550 lbs. (250 kg.)
Maximum Hp.	4 Standard shaft engine
No. of Air Chambers	2
Color	Red or Grey

4-MAN DELUXE DINGHY

DT-4

Length	9' 5" (287 cm.) Inflated
Beam	4' 7" (140 cm.) Inflated
Tube Diameter	13.8" (35 cm.)
Weight	77 lbs. (35 kg.)
Loading Capacity	880 lbs. (400 kg.)
Maximum Hp.	4 Standard shaft engine
No. of Air Chambers	3
Color	Red or Grey

The DT Series

These are our best selling, most popular models. Made of high quality Nylon coated with Neoprene on the inside to guarantee an airtight hull. Neoprene and Hypalon are then applied to the outside for extra protection from abrasion, weather and gasoline. These are the classic light dinghies. Perfect for ferrying passengers from harbor to larger boats. But this is just one of the hundred uses you'll find for them.

DINGHIES L SERIES

2-MAN DINGHY

LT-2 PACKAGE "D"

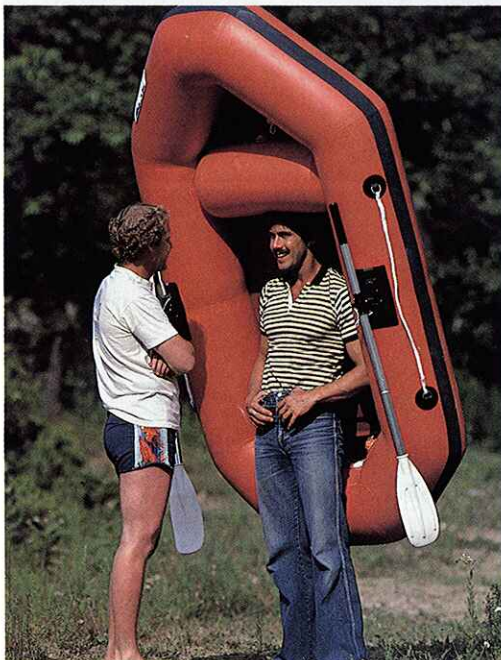

Length	7' 1" (215 cm.) Inflated
Beam	4' 0" (120 cm.) Inflated
Tube Diameter	11.8" (30 cm.)
Weight	24 lbs. (11 kg.)
Loading Capacity	528 lbs. (240 kg.)
Maximum Hp.	2 Standard shaft engine
No. of Air Chambers	2
Color	Red

4-MAN DINGHY

LT-4 PACKAGE "D"

Length	9' 6" (290 cm.) Inflated
Beam	4' 7" (140 cm.) Inflated
Tube Diameter	13.8" (35 cm.)
Weight	31 lbs. (14 kg.)
Loading Capacity	792 lbs. (360 kg.)
Maximum Hp.	4 Standard shaft engine
No. of Air Chambers	2
Color	Red

The LT Series

A new concept in portable boating. Extremely light, easy to transport and very economical, these sturdy dinghies are still made with our high percentage Hypalon/Neoprene fabric for incredible durability. They fold up into a compact, space saving bag which can easily be stowed in car trunks, campers or closets. These attractive dinghies can be used by motorcyclists, bikers, and even backpackers. LT dinghies are available in a basic equipment "A" package, and a "D" package with basic equipment, motor mount and floorboards.

Package "A"

2-MAN HEAVYWEIGHT DINGHY **LS-2**

Length	7' 6" (228 cm.) Inflated
Beam	4' 4" (132 cm.) Inflated
Tube Diameter	13.8" (35 cm.)
Weight	55 lbs. (25 kg.)
Loading Capacity	615 lbs. (280 kg.)
Maximum Hp.	2 Standard shaft engine
No. of Air Chambers	2
Color	Red or Dark Green

4-MAN HEAVYWEIGHT DINGHY **LS-4**

Length	8' 6" (260 cm.) Inflated
Beam	4' 8" (142 cm.) Inflated
Tube Diameter	15" (38 cm.)
Weight	69 lbs. (31 kg.)
Loading Capacity	924 lbs. (420 kg.)
Maximum Hp	6 Standard shaft engine
No. of Air Chambers	2 plus air keel
Color	Red or Dark Green

The LS Series

These tough 7' 6" and 9' dinghies have a large tube diameter, wide beam and wooden transom for outstanding stability and high carrying capacity. The LS-2 has a full floorboard and the LS-4 an inflatable airkeel for extra stability. And both are made with Achilles durable Hypalon/Neoprene fabric. Still, they are compact and lightweight for easy storing and transporting. They make excellent tenders for small and medium size sailboats.
